Mission

Who we are
Mission

As one of the largest nonprofit health care integrated delivery organizations in the country, we are committed to improving the health and well-being of the people and communities we serve through leadership, education, innovation and excellence in medicine.

To be the national model among health care integrated delivery organizations in patient advocacy, clinical quality, medical research, employee satisfaction and financial stability.

FAQ

What are the facilities available in the hospital? —
We are multispecialty hospitals and offer the complete range of medical and surgical specialties under one roof, with highly experienced doctors, state-of-the-art infrastructure and diagnostic services.

How are the charges for day care determined? —
Charges applicable for day care (less than 8 hours) are calculated on the basis of half-day bed charges.

Do we need to pay any advance at the time of admission? —
Yes, patients are required to pay a deposit as per the category of the bed at the time of admission. In case of a surgery or a procedure, the total estimated amount has to be deposited with the hospital

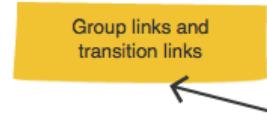

What is the mode of payment? —
Patients can make the deposit by cash, debit or credit cards or demand draft. We do not accept cheques.

Is my Mediclaim policy accepted at your hospital? —
Yes, if your TPA is on the panel of our hospital.

The diagram illustrates a web page structure for a hospital. It features a header with the logo 'POLIMICARE' and navigation links. Below the header is a breadcrumb trail 'XXX > YYY > ZZZ' and an 'Orientation info' section. The main content area is titled 'Avelon Hospital' and contains contact information (+39 050669663, email: avelonhospital@clinic.com). On the left, a sidebar lists 'Description', 'How to reach it', and 'Available services'. Three types of links are highlighted with yellow boxes and arrows: 'Group links and transition links' points to the breadcrumb; 'Structural links' points to the sidebar; and 'Transitional link' points to the main content area. The main content area also includes a photograph of a medical facility and a descriptive paragraph about the hospital's services and ranking. At the bottom, there are social media icons for Facebook, Twitter, and YouTube, along with a 'Fixed contents: commercial and legal infos' section.

Surgery of Trauma Sports

Area of the service

Description
Doctors
Customer's feedback

The Dispensary of sports injuries is aimed at all those who, as a result of a trauma occurring during the performance of a sport at the weekend, have experienced one or more problems related to musculoskeletal system.

Thanks to a coordinated team of specialists in orthopedics, traumatology and arthroscopic surgery, dentists, radiologists and physiotherapists, the Clinic of Sports Traumatology acts as a qualified reference point in case of accidents, in sport, providing a integral service not only the athlete, but also to companies, sports clubs operating in the amateur and amateur sectors of all sports.

The patient is being followed by doctors and physiotherapists CDI from the first orthopedic or dental examination up to the full resumption of their sport with a continuous exchange of views and consultations between orthopedic specialist, the physiatrist and physical therapist dedicated.

This diagram illustrates a web page structure for a medical service. At the top, there's a header with the logo 'POLIMICARE' and a navigation menu. Below the header, a breadcrumb trail shows the path 'XXX > YYY > ZZZ'. A main title 'Surgery of Trauma Sports' is centered above a detailed text block about the dispensary. To the left of this text is a sidebar with links for 'Description', 'Doctors', and 'Customer's feedback'. On the right, there's a 'Book' button with a calendar icon. At the bottom, there's a 'Contact' button with an envelope icon. The page footer contains social media icons for Facebook, Twitter, and YouTube, along with a section for 'Fixed contents: commercial and legal infos'. A yellow callout box labeled 'Group links and transition links' points to the breadcrumb area, and another yellow callout box labeled 'Action link' points to the 'Contact' button. Arrows indicate the flow of user interaction between these elements.

Surgery of Trauma Sports

Area of the service

Description
Doctors
Customer's feedback

Fast and professional
8,5/10
I broke my right leg during a football match and I recovered completely after only one month of therapy

Too expensive
5/10
The service would be fine if they didn't ask you to pay for every extra service that might be necessary to complete the therapy; at least they should estimate it before starting

Very professional
9/10
I recovered completely from my medical condition after only one month!

The diagram illustrates a web page layout for a service titled "Surgery of Trauma Sports". The page features a header with the logo "POLIMICARE" and a navigation menu. Below the header, there is a breadcrumb trail "XXX > YYY > ZZZ" and an "Orientation info" section. The main content area displays five doctor profiles in a grid format, each with a name, a small portrait, and a "Contact" button. A sidebar on the left lists "Description", "Doctors", and "Customer's feedback". A "Book" button is located in the top right corner. The bottom of the page contains social media icons for Facebook, Twitter, and YouTube, along with a "Fixed contents: commercial and legal infos" section. Three yellow callout boxes with arrows point to specific elements: one points to the breadcrumb and navigation area labeled "Group links and transition links"; another points to a link between the profiles of Dr. Who and Dr. Strange labeled "Transitional link"; and a third points to the "Contact" button for Dr. Strange labeled "Action link".

Specialist visits

Description
Services

At all locations in the Clinic, we offer a complete range of products, offering the most important clinical specializations and working on the continuous improvement and expansion of our services.

The Clinic's specialists come from the main centers of Italian hospital and university excellence and collaborate with us in a freelance profession. Professionals are selected not only for their technical expertise and clinical experience, but also for their relational skills, which allow to centralize their relationship with the patient. Specialists use state-of-the-art equipment and follow the international guidelines.
